HAMMAD WANI

Computer Science and Engineering Student · AI / ML Developer

hamadwani885@gmail.com · Srinagar, Jammu and Kashmir, India
github.com/hamadwani · linkedin.com/in/hamad-wani-6a7a7b335

PROFILE

Computer Science and Engineering student at the University of Kashmir, interested in Artificial Intelligence, Machine Learning, Computer Vision, and software development. Builds practical technology for real-world problems, especially healthcare and data-driven applications.

EXPERIENCE

Web Development Intern

CODE ALPHA · THREE-MONTH INTERNSHIP

Worked on web development projects using HTML, CSS, and JavaScript.

HTML CSS JAVASCRIPT

EDUCATION

Computer Science and Engineering

UNIVERSITY OF KASHMIR · UNDERGRADUATE STUDENT

Srinagar, Jammu and Kashmir, India.

SELECTED PROJECTS

MCI Progression Research

FINAL-YEAR ACADEMIC RESEARCH

Studies whether MRI, PET, and clinical information can classify progression from MCI to Alzheimer's dementia within three years versus stable outcomes.

MRI PET CLINICAL DATA

Law Mitra AI

AI AND LEGAL TECHNOLOGY

An AI-focused legal technology project intended to make legal information and assistance more accessible.

JAVASCRIPT

X-Ray Diagnosis AI

HEALTHCARE AI AND COMPUTER VISION

Chest X-ray research app using DenseNet121 transfer learning, Grad-CAM, a Flask REST API, and a web interface. Not for clinical diagnosis.

PYTHON DENSENET121 GRAD-CAM

University Management Information System

EDUCATION TECHNOLOGY

Web application for student records, enrollment, staff, hostels, placements, scholarships, and exam results.

FLASK PYTHON SQLITE

Personal Book Library

WEB DEVELOPMENT

Responsive front-end book library with title search and a sample collection.

HTML CSS JAVASCRIPT

SKILLS

Programming

Python · Java · C

AI / MACHINE LEARNING

Machine learning · Deep learning · Computer vision · Transfer learning

Frameworks and tools

TensorFlow · Keras · Flask · Pandas · Scikit-learn

Development

Web development · Python scripting · Dataset analysis · Model integration

INTERESTS

Healthcare AI, medical image analysis, applied AI research, useful software products, and data-driven applications.
